

Harry Otieno Mokaya

Software Engineer

PROFESSIONAL SUMMARY

A driven Software Engineering student with hands-on experience in software development, machine learning, Android development, and web technologies. Passionate about building innovative, real-world solutions that create meaningful community impact. Strong problem-solving skills, a collaborative mindset, and a commitment to continuous learning and technical excellence.

WORK EXPERIENCE

Data & Administrative Support | 2025, September 26 – October 21

SPSS Training, Mentorship & Coaching for Thesis and Project

- Designed and implemented a structured Microsoft Excel data management system to store and organize student records accurately and efficiently.
- Assisted in setting up email communication workflows for sending messages and updates to students using stored data.
- Created professional visual posters to support organizational communication and outreach initiatives.
- Improved record-keeping efficiency and data accessibility, supporting smoother administrative operations.
- Collaborated with organizational staff to understand requirements and deliver practical, easy-to-use solutions within a short timeframe.
